Team Leadership

This course focuses on how to create and develop a successful team. From getting the most out of existing team members, recruiting new ones, what makes a successful team, team development, and ways of communicating with a team.

IS THIS FOR YOU?

This course is designed for those who need to gain an understanding of key leadership skills. Also it would be relevant for Team Leaders or experienced staff being given leadership or management responsibilities.

ABOUT THE COURSE

Successful teams are often the cornerstones of successful organisations. If you're looking for promotion, additional responsibility or to broaden your opportunities, then team leadership will be of great importance.

The aim of this course is to learn about best practices for leading a team, including the importance of diversity and inclusion, and team motivational theories like Maslow's Hierarchy of Needs, among others.

You'll also explore the stages of team development, theories like servant leadership, and the barriers to communication, along with the communication methods and channels you can use to overcome them.
