

Microsoft 365 Fundamentals (MS-900)

In this course, you'll dive deep into configuring, implementing, and supporting Microsoft 365 integrated productivity services.

course outline

IS THIS COURSE FOR YOU?

This course is designed for aspiring IT professionals looking to develop a strong foundation in Microsoft 365 software as a service solutions to facilitate productivity for on-site and remote users.

ABOUT THE COURSE

Microsoft 365 is an integrated productivity solution that allows users to work from anywhere while taking advantage of its security and device-management capabilities. With its array of integrated tools, users in an organisation are able to collaborate more easily and effectively.

In this course, you'll dive deep into configuring, implementing, and supporting Microsoft 365 solutions. You'll explore several forms of cloud computing and how it differs from on-premises data management. You'll learn key considerations of operating in the cloud and the benefits of doing so. You'll learn how Microsoft 365 supports security, compliance, and privacy, and you'll explore the Windows OS, Autopilot, and Azure.

You'll learn how Microsoft 365 enables collaboration with Microsoft Teams, which provides integration with more than 140 apps and services and secure encryption. You'll explore Microsoft 365 collaboration features, and you'll delve into Office 365 deployment considerations, including the various ways Office 365 enables collaboration. You'll also explore features relating to identity and data protection.

AIMS AND OBJECTIVES

In addition to preparing you to work with Microsoft 365 services, this course will prepare you for the Microsoft 365 Fundamentals (MS-900) certification exam.

PRE-REQUISITES

Cloud Essentials+ or equivalent

COURSE CONTENT

Module 1 - Understanding Cloud Concepts

Module 2 - Cloud Benefits & Considerations

Module 3 - Cloud Services & Principles

Module 4 - Windows Enterprise

Module 5 - Windows, Autopilot, & Azure

Module 6 - Deployment Planning, Azure & Updates

Module 7 - Windows & Admin Center

Module 8 - Microsoft 365, Exchange & SharePoint

Module 9 - Skype for Business, Teams & Collaboration

Module 10 - Office 365 & Collaboration

Module 11 - Protecting Your Information

Module 12 - Azure AD & Access Management

Module 13 - Mobile Management & Security and Compliance

CAREER PATH

This course and associated certification will stand you in good stead in roles that involve installing, configuring, and maintaining Microsoft 365 services within an enterprise environment.

COURSE DURATION

24 hours. This will vary from individual to individual based on prior knowledge and ability.

CPD POINTS: 24

CPD points awarded upon successful completion.

Building careers
for 180 years.
