

PRINCE2® Practitioner

This course follows PRINCE2® Foundation and is an excellent course to solidify and expand your existing project management skills.

course outline

IS THIS COURSE FOR YOU?

This course is suitable for anyone currently managing projects, as part of their day to day work, who has gained the Prince2 Foundation certification and would like to further their skills to achieve the Prince2 Practitioner certification. This will confirm knowledge and understanding to apply the method in a range of different project environments.

ABOUT THE COURSE

Employers hold top level project management expertise in high regard. Projects can be complex and diverse and having a skilled leader supervising and communicating throughout the lifespan of the project can mean the difference between success and failure.

This is the ideal course if you're looking to solidify and expand your existing project management skills. It follows the PRINCE2 standards and methodology and teaches you how to become an expert project manager who can create, manage, and see a project through to completion.

Through the many topics in this course, you'll look at how to create a business case for a project, how to direct the project, monitor its risk and quality, and finally, bring it to a successful conclusion.

On completion, you will gain a Pitman Training certificate and be prepared to take the PRINCE2 Practitioner exam.
