

Animate CC

course outline

The Adobe Animate CC course will help you learn how to create online animations. Such animations are found on websites, videos, video games, advertisements, cartoons etc. It is an essential program for anyone wanting to work in a creative online animation role.

IS THIS FOR YOU?

If you want to work in web development or a creative professional role where you're creating exciting, innovative and animated media, then understanding the Animate CC interface and features will maximise your success. Those looking at roles such as digital animator, app developer, graphic design or video producer for example will all benefit from this training.

ABOUT THE COURSE

The Adobe Animate program is part of the Creative Cloud set of applications. Animate CC will enable you to create some truly exciting animations.

There are five domains within this course:

Domain 1: Purpose, Audience and Communications, Copyright, Permissions and Licensing. Basic Design, Animation and Interactive Media Principles.

Domain 2: Settings and Workspace, Customize Workspaces, Import and Manage Assets, Colours, Swatches, Gradients, Presets.

Domain 3: Manage Layers and Layer Visibility.

Domain 4: Element Tools and Features, Add and Manipulate Text, Work with Selections, Manipulate Digital Graphics, Effects, Graphic Styles and Animations, Interactive and Dynamic Content, Audio and Video.

Domain 5: Use of Scenes, Export and Publish.

AIMS AND OBJECTIVES

The aim of this course is to teach you how to create rich animated media content using the Animate CC program.

If you're looking to take the Animate CC exam, this course has been carefully mapped to cover the objectives found in that particular examination.
